Maryland

HORSE INDUSTRY BOARD

Karen Fulton and her husband Stephen (a professional farrier) have owned and operated Full Moon Farm LLC in Finksburg since 1994. Full Moon Farm is a full-service lesson and boarding facility teaching approx. 200 students per week. The Fultons run numerous horse shows/ schooling days and unrecognized horse trials from their 80 acre facility. Karen is the head instructor, coach and the manager of the farm. Along with the capable members of the Full Moon Team she routinely takes students to horse trials and other competitions. Once an active competitor in the Chicagoland area she now prefers to teach and coach students, including her husband and two daughters Savannah (13) and Grace (10). She and Stephen were active members of Goshen Hounds in the 1980's and now enjoy taking students out occasionally with Carrollton Hounds. Karen is a member of the USEF, USEA, USHJA, MCTA and the AQHA. She is a former level 3 certified instructor from ARIA. Karen has a BS in Animal Science from Purdue University and a MS in Comparative Animal Nutrition from Michigan State University. She helped to establish Purdue's first intercollegiate riding team and participated on the horse judging teams (at PU and MSU) as a competitor and coach. Prior to her full-time involvement with the horse industry she was a research associate with the National Zoological Park and Baltimore Zoo's Associate Curator of Mammals. She serves on the MHHIB's Health Advisory Committee and was elected to represent licensed stable operators on the Board in 2009.
